

**Defense Security Service Academy (DSSA)**  
**Security Education, Training and Awareness**

# Course Catalog

### GENERAL SECURITY

#### Instructor-led Courses

DoD Security Specialist (GS101.01)

Security Awareness for Educators (SAFE) (GS103.01)

#### Online Courses

Antiterrorism Officer (ATO) Level II (GS109.16)

Risk Management for DoD Security Programs Course (GS102.16)

### INDUSTRIAL SECURITY

#### Instructor-led Courses

Getting Started Seminar for New FSOs (IS121.01)

Industrial Security Mentoring Program (IS102.09)

Industrial Security Specialist (IS202.01)

NISPOM Chapter 8 Implementation (IS302.01)

#### Online Courses

Business Structures in the NISP Course (IS051.16)

Essentials of Industrial Security Management (EISM) Independent Study Course (IS002.18)

FSO Role in the NISP (IS021.06)

Industrial Security Facilities Database (ISFD) (IS111.06)

Information System Security Basics (IS004.08)

NISPOM Chapter 8 Requirements for Industry (IS201.16)

Protecting Secret and Confidential Documents (PSCD) Independent Study Course (IS003.18)

Transmission and Transportation for Industry (IS107.16)

### INFORMATION SECURITY

#### Instructor-led Courses

Information Security Orientation (IF101.01)

Information Security Management (IF201.01)

Information Security Seminar (Customized) (IF199.01)

#### Online Courses

Basic Information Security Independent Study Course (IF001.18)

Derivative Classification (IF103.16)

Marking Classified Information Course (IF105.16)

Original Classification (IF102.16)

### PERSONNEL SECURITY

#### Instructor-led Courses

DoD Advanced Personnel Security Adjudications (PS301.01)

DoD Personnel Security Adjudications (PS101.01)

JPAS/JCAVS Training for Security Professionals (PS123.01)

Personnel Security Seminar (Customized) - Adjudication (PS198.01)

Personnel Security Seminar (Customized) JPAS (PS199.01)

#### Online Courses

DoD Personnel Security Adjudications Independent Study (PS001.18)

Introduction to Personnel Security Management Course (PS113.16)

Personnel Security Management Course (PS103.16)

### SPECIAL ACCESS PROGRAMS

#### Instructor-led Courses

SAP Mid-Level Management Course (SA201.01)

SAP Orientation Course (SA101.01)

SAP Overview (SA100.01)

Security Compliance Inspection Seminar (SA210.01)

### FACILITATED PROGRAMS

#### Instructor-led Courses

DNI Physical Security Seminar (FT105.01)

DNI SCI Adjudication Seminar (FT106.01)

DoD OPSEC Course (OPSE 2400)

International Programs Security Requirements Course (IPSRC) (FT108.01)

OPSEC Analysis & Program Management (OPSE 2500)

#### Online Courses

DoD Information Assurance Awareness (DS-IA101.06)

Insider Threat (JC-CI101.06)

OPSEC Fundamentals Course (IO-OP101.16)

Personally Identifiable Information (PII) (DS-IF101.06)

### Antiterrorism Officer (ATO) Level II - Introduction (GS109.16)

### GENERAL SECURITY

**Description:** Launches the course Introduction which reviews the purpose, goals, intended audience, length and structure of the course including navigation instructions. This Introduction must be completed and closed before registering for or beginning the first module. A module is complete only after every screen has been reviewed. It is possible to register more than once for the Introduction or any Module as refresher training once initially completed. The Introduction and Modules 1-5 must be completed before registering for the final examination. The course in its entirety provides students with the appropriate background, skills and abilities necessary to qualify as the command's or organization's Antiterrorism Officer (ATO). It examines ATO roles and responsibilities, vulnerability and threat assessments, creation and execution of antiterrorism (AT) programs, preparation of AT plans, resources management and AT training. Successful completion of this course qualifies individuals to conduct Level 1 AT briefings.

**Delivery:** Web-Based Training

**Length:** 10 minutes (Introduction), 13.5 hours (All Modules)

**Target Audience:** AT program managers of DoD agency and field activities who otherwise cannot attend a Service-sponsored course.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on exam (GS109.06) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Internet Explorer 5.5 or above with JAVA and JavaScript enabled.

**Notes:** Production date: 5/1/2005

#### Course Schedule:

This course is available year-round on DSSA ENROL.

### Basic Information Security Independent Study Course (IF001.18)

### INFORMATION SECURITY

**Description:** Provides a basic overview of the Department of Defense (DoD) Information Security Program policy for classifying and declassifying information, and the requirements and techniques for ensuring that classified information is clearly marked, controlled, handled, stored and destroyed.

**Delivery:** Web-Based Training

**Length:** 16 hours

**Target Audience:** DoD military and civilian personnel with little or no experience working with classified information.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on exam (IF001.08) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Adobe Acrobat Reader

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (IF001.08) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

**Course Schedule:**

This course is available year-round on DSSA ENROL.

**Related Courses:**

### Business Structures in the NISP Course (IS051.16)

### INDUSTRIAL SECURITY

**Description:** Enables the student to recognize the business structure of any facility participating in the National Industrial Security Program (NISP) and obtain key information from business records that is relevant to the facility being cleared in the NISP. The course covers the most common business structures IS Reps encounter when processing a company for a facility clearance. After completing this course a learner will be able to:

**Delivery:** Web-Based Training

**Length:** 2 hours

**Target Audience:** DSS Industrial Security Specialists, Facility Security Officers and others working in the NISP.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on exam (IS051.06) at end of course in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Internet Explorer 5.5 or above with JAVA and JavaScript enabled.

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (IS051.06) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

**Course Schedule:**

This course is available year-round on DSSA ENROL.

**Related Courses:**

### Derivative Classification (IF103.16)

### INFORMATION SECURITY

**Description:** Explains how to derivatively classify national security information from a classification management perspective. The course discusses the responsibilities associated with derivatively classifying information; describes the process and methods for derivatively classifying information; identifies authorized sources to use when derivatively classifying information and explains how to apply authorized sources, through derivatively classifying information based on the concepts of “contained in,” “revealed by,” and compilation.

**Delivery:** Web-Based Training

**Length:** 2 hours

**Target Audience:** DoD military, civilian and contractor personnel who are responsible for derivatively classifying national security information.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on the final examination (IF103.06) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Adobe Flash Player 8.0 or above.

#### Course Schedule:

This course is available year-round on DSSA ENROL.

### Director National Intelligence (DNI) Physical Security Seminar (FT105.01)

### FACILITATED PROGRAMS

**Description:** Outlines the construction and security protection standards required for all US Government facilities or US Government sponsored contractor facilities where Sensitive Compartmented Information (SCI) or Special Access Program (SAP) material may be stored, used, discussed and/or processed. Seminar discussion includes use of telephone and intercommunication equipment, destruction devices, TEMPEST and the threat to US systems. Attendees discuss current physical security concerns of their respective organizations and apply information learned during the seminar to design a SCIF (SCI Facility).

**Delivery:** Instructor-led

**Length:** 5 days

**Target Audience:** Federal government civilians, military personnel and government contractors with responsibility for the physical planning and implementation of SCI and SAP facilities. By nomination from respective government agency only.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Knowledgeable of DCID 6/9, "Manual for Physical Security Standards for Sensitive Compartmented Facilities (SCIFs)."

**Course Requirements:** Full-time attendance and participation in all sessions.

**Number of students per course:** 48

**Notes:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System). This seminar is a product of the DNI Special Security Center. Questions and registration can be handled by calling 703-482-3606.

#### Course Schedule:

Jan 12 - 16, 2009 Linthicum, MD  
Apr 06 - 10, 2009 Linthicum, MD  
Jun 08 - 12, 2009 Linthicum, MD

#### Related Courses:

### Director National Intelligence (DNI) SCI Adjudication Seminar (FT106.01)

### FACILITATED PROGRAMS

**Description:** Prepares individuals to make adjudicative decisions in accordance with DCID (Director of Central Intelligence Directive) 6/4 requirements. The seminar provides approaches to enhance the best practices and reciprocity among the organizations authorized within the Intelligence Community and the Department of Defense (DoD) to adjudicate for Sensitive Compartmented Information (SCI) access. This seminar is an adjunct to existing adjudication training available within the Intelligence Community and the DoD.

**Course Schedule:**

Feb 09-13, 2009	Linthicum, MD
Mar 23-27, 2009	Linthicum, MD
Jul 27-31, 2009	Linthicum, MD

**Delivery:** Instructor-led

**Tools**

- Contact the [course manager](#)

**Length:** 4 and 1/2 days

**Target Audience:** Personnel performing DCID 6/4 adjudication or screening background investigations for DCID 6/4 adjudication.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** None

**Course Requirements:** Full-time attendance and participation in all sessions.

**Number of students per course:** 40

**Notes:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System). This seminar is a product of the DNI Special Security Center. Questions and registration can be handled by calling 703-482-3606.

**Related Courses:**

### DoD Advanced Personnel Security Adjudications (PS301.01)

### PERSONNEL SECURITY

**Description:** Provides in-depth study of adjudication policy guidelines and the basis for and application of due process in unfavorable personnel security determinations. The course emphasizes evaluation and resolution of complex multiple and sensitive issue cases; and the actions, agencies and related requirements involved.

**Delivery:** Instructor-led

**Length:** 4 and 1/2 days

**Target Audience:** DoD civilian (GS-11 level and above) and military personnel assigned to an adjudicative facility who adjudicate for assignment to sensitive positions and access to collateral and SCI program information. Also open to adjudicators at the senior GS-9 level subject to approval of their Central Adjudication Facility (CAF), and other DoD and non-DoD personnel on a space available basis. Nominations for attendance must be made through and approved by the head of the student's CAF or designee.

**Clearance Requirements:** None

**Prerequisites:** Successful completion of the [DoD Personnel Security Adjudications \(PS101.01\)](#) course and currently performing in an adjudicative or related position for the past 12 months with at least 6 months of on-the-job experience after successful completion of the DoD Personnel Security Adjudications Course.

**Course Requirements:** Full-time attendance and participation in all sessions. Passing grade of 75% on performance exercises and course exams.

**Number of students per course:** 16

**Course Schedule:**

Feb 23 - 27, 2009	Linthicum, MD
Apr 20 - 24, 2009	Linthicum, MD
Jun 15 - 19, 2009	Linthicum, MD
Sep 21 - 25, 2009	Linthicum, MD

**Tools**

**Related Courses:**

### DoD Information Assurance Awareness (DS-IA101.06)

### FACILITATED PROGRAMS

**Description:** This web-based product provides expanded modules and topics to reflect the constant changing world of information assurance as it relates to information technology. The user is introduced to the principles of IA, its evolution, IA-related policies and laws, and critical infrastructure protection (CIP). The training explains the differences between threats and vulnerabilities and provides information regarding the insider threat, social engineering, and peer-to-peer applications. The user is presented with the concept of Malicious Code, including its impacts and the methods it uses to infect information systems. Important guidelines for ensuring a secure system, defining classification levels for DoD information, to include personally identifiable information (PII), and outlining your role as a user in protecting this information is also provided. The course also introduces the threats associated with identity theft, spyware, and phishing and how you can protect yourself, as well as, providing security tips to practice in your daily routine to increase your home computer security.

**Delivery:** Web-Based Training

**Length:** 2 hours

**Target Audience:** Target Audience: DoD civilians, military members, and contractors using DoD information and information systems. This is required training for all DSS employees and contractors.

**System Requirements:** Internet Explorer 6.0, Flash 8.0 or higher, DSL (32 KB/s) or better Internet connection.

#### Course Schedule:

This course is available year-round on DSSA ENROL.

### DoD OPSEC Course (OPSE 2400)

### FACILITATED PROGRAMS

**Description:** Prepares DoD OPSEC personnel to provide OPSEC planning and analysis support to their commanders, develop and implement an OPSEC program within an organization, integrate OPSEC into mission planning and plan OPSEC assessments.

**Delivery:** Instructor-led

**Length:** 4 days

**Target Audience:** DoD personnel including military members and civilian employees who will assume the duties of OPSEC Program Managers, OPSEC Coordinators or OPSEC Working Group Members. Non-DoD students are encouraged to register for the OPSE 2500 course offered at [www.iooss.gov](http://www.iooss.gov).

**Clearance Requirements:** Secret

**Prerequisites:** Successful completion of OPSE 1301 computer-based course, also available through the DSS Academy as [OPSEC Fundamentals course and exam \(IO-OP101.16/IO-OP101.06\)](#) or OPSE 1300, an instructor-led course offered by the Interagency OPSEC Support Staff.

**Course Requirements:** Students must attend all sessions, participate in discussions and practical exercises, and score at least 70% on the final exam.

**Number of students per course:** Varies

**Notes:** The academic content of OPSE 2500 and OPSE 2400 is the same. DoD students may attend either, but OPSE 2004 is tailored specifically to DoD requirements. Registration for this course is being handled by the Interagency OPSEC Support Staff (IOSS). Please call the IOSS Registrar at 443-479-4671, Customer Support at 443-479-4677, ext 2 or send a message to [iooss@radium.ncsc.mil](mailto:iooss@radium.ncsc.mil). To request training or products, access the website at <http://www.iooss.gov>.

#### Course Schedule:

Jan 12 - 15, 2009	Peterson AFB, CO
Jan 20 - 23, 2009	San Diego, CA
Jan 26 - 29, 2009	San Antonio, TX
Feb 09 - 12, 2009	AFRICOM, Africa
Mar 02 - 05, 2009	Ft. Belvoir, VA
Apr 06 - 09, 2009	San Antonio, TX
Jun 08 - 12, 2009	AFRICOM, Stuttgart, Germany
Jun 15 - 19, 2009	Stuttgart, Germany
Jun 22 - 25, 2009	Ft. Belvoir, VA
Jul 06 - 09, 2009	San Antonio, TX
Aug 03 - 06, 2009	San Antonio, TX
Sep 14 - 17, 2009	Ft. Belvoir, VA
Sep 28 - Oct 01, 2009	Norfolk, VA

### DoD Personnel Security Adjudications (PS101.01)

### PERSONNEL SECURITY

**Description:** Covers personnel security program fundamentals such as history, laws, and regulations; personnel security investigations; security clearances; and sensitive positions. Discusses the role of adjudicators along with investigative, counterintelligence and law enforcement personnel in the personnel security program. Reviews the process for making personnel security determinations through consistent application of policy guidelines. Explains how to identify suitability issues requiring further investigation and the actions involved in making unfavorable personnel security determinations. Contains extensive exercises in identifying and resolving personnel security issues in assuring selection of persons for access to classified information and/or assignment in sensitive positions meet adjudicative standards.

**Delivery:** Instructor-led

**Length:** 8 and 1/2 days

**Target Audience:** DoD civilian (GS 5-7 level) and military personnel assigned to an adjudicative facility who adjudicate for eligibility for assignment to sensitive positions and/or access to collateral and SCL program information. Nominations for attendance must be made through and approved by the head of the student's Central Adjudication Facility or designee.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Successful completion of the [DoD Personnel Security Adjudications Independent Study \(PS001.18/PS001.08\)](#) course and exam.

**Course Requirements:** Full-time attendance and participation in all sessions. Passing grade of 75% on performance exercises and course exams.

**Number of students per course:** 24

**Notes:** Student clearance eligibility and access information must be documented in JCAVS (Joint Clearance Access Verification System).

#### Course Schedule:

Jan 20 - 30, 2009 Linthicum, MD  
Mar 09 - 19, 2009 Linthicum, MD  
May 11 - 21, 2009 Linthicum, MD  
Jul 14 - 24, 2009 Linthicum, MD

### DoD Personnel Security Adjudications Independent Study Course (PS001.18)

### PERSONNEL SECURITY

**Description:** Explains DoD Personnel Security Program basics and introduces several key concepts covered in the resident DoD Personnel Security Adjudications (PS101.01) course. This course is prerequisite training for persons approved to attend the resident course.

**Course Schedule:**

This course is available year-round on DSSA ENROL.

**Delivery:** Web-Based Training

**Length:** 50 hours

**Target Audience:** DoD civilian, military, and contractor personnel who perform personnel security adjudication and personnel security management.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on exam (PS001.08) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Adobe Acrobat Reader

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (PS001.08) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

**Tools**

- [Sign up for this course](#)
- Contact the [course manager](#)

**Related Courses:**

### DoD Security Specialist (GS101.01)

### GENERAL SECURITY

**Description:** Introduces the security disciplines, policies, procedures, and their interaction and implementation as they apply to the Department of Defense (DoD) Security Specialist career field. The course provides a common body of knowledge, which promotes an understanding of the scope, importance, and interdependency of the information, physical, industrial, personnel, information system, communications, and operations security programs. The intensive curriculum relates these programs to the installation level and demonstrates their interrelationship. The course integrates these programs through discussion, study, and exercises in security management, inspections and oversight, and education and training.

**Delivery:** Instructor-led

**Length:** 10 days

**Target Audience:** All newly assigned civilian, military or contractor security personnel performing primary duties in security functions; or DoD civilian, military or contractor personnel performing security duties who require a fundamental understanding of DoD security disciplines and their inter-relationship. Other federal agency security specialists may be nominated by their agency headquarters to attend the course.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Successful completion of the [Basic Information Security Independent Study \(IF001.18/IF001.08\)](#), [Marking Classified Information \(IF105.16/IF105.06\)](#), [Personnel Security Management \(PS103.16/PS103.06\)](#), [Risk Management for DoD Security Programs \(GS102.16/GS102.16\)](#), and [OPSEC Fundamentals \(IO-OP101.16/IO-OP101.06\)](#) courses and exams.

**Course Requirements:** Students must earn 75% of total possible points in the course calculated from scores on practical exercises and exams.

**Number of students per course:** 48

**Note:** The DSSA accepts requests to conduct this course off-site and will work with sponsoring activities to schedule course dates. If space is available, host organizations are asked to accept students from other locations. Joint sponsorship among activities in a common geographic area is encouraged. The host is responsible for funding all travel and per diem costs for two instructors and FedEx shipment of course materials.

#### Course Schedule:

Feb 02 - 13, 2009 Redstone Arsenal, AL  
Feb 23 - March 06, 2009 Camp Arifjan, Kuwait  
Mar 09 - 20, 2009 Ft. Belvoir, VA  
Mar 23 - April 03, 2009 Naples, Italy  
Apr 06 - 17, 2009 Robins AFB, GA  
May 11 - 22, 2009 Linthicum, MD  
Jun 15 - 26, 2009 Ft. Hood, TX  
Jul 13 - 24, 2009 Offutt AFB, NE  
Sep 14 - 25, 2009 Malmstrom AFB, MT

### Essentials of Industrial Security Management (EISM) Independent Study Course (IS002.18)

### INDUSTRIAL SECURITY

**Description:** Covers basic National Industrial Security Program (NISP) requirements with emphasis on contractor responsibilities. The course includes lessons on the NISP, the NISP Operating Manual (NISPOM), facility security clearances, the personnel security process, reporting requirements, procedures for visitors, briefings, surveys and security inspections. Access to a NISPOM is required.

**Delivery:** Web-Based Training

**Length:** 15 hours

**Target Audience:** Facility Security Officers (FSOs) and security personnel of contractor facilities cleared under the NISP. Also appropriate for U.S. government personnel and their contractors with an official need; and DSS or cognizant security agency personnel and their contractors with an official need.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on course exam (IS002.08) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Adobe Acrobat Reader

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (IS002.08) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

### Industrial Security Specialist (IS202.01)

### INDUSTRIAL SECURITY

**Description:** Trains new DSS Industrial Security (IS) Representatives (Reps) to perform basic IS responsibilities including initial clearance and recurring inspections of non-complex facilities which are approved to store classified material under the National Industrial Security Program.

**Delivery:** Instructor-led

**Length:** 4 weeks

**Target Audience:** New DSS IS Reps

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Certified completion of the [Industrial Security Mentoring Program \(IS102.09\)](#).

**Course Requirements:** Full-time attendance and participation in all sessions. Course includes comprehensive examinations and graded practical exercises. Students must earn a 75% grade average on course exams and performance exercises. The student must also exhibit an attitude and demeanor that will enable performance of highly sensitive interactions with defense contractors, government contracting activities and counterintelligence organizations.

**Number of students per course:** 24

**Notes:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System).

**Course Schedule:**

Mar 03 - 27, 2009 Linthicum, MD  
Aug 04 - 28, 2009 Linthicum, MD

**Related Courses:**

### Information Security Management (IF201.01)

### INFORMATION SECURITY

**Description:** Provides a comprehensive understanding of the Department of Defense (DoD) Information Security Program policy and procedures. Lessons address security classification, downgrading and declassification; safeguarding (access and dissemination control, accountability, security storage, disposal and destruction and transmission); violations and compromises; security education and program oversight. Students are able to discuss ideas, issues, problems, and possible solutions with key representatives of Executive Branch organizations responsible for the Information Security Program. The intent of this course is to provide knowledge and skills for students to effectively implement and/or oversee DoD Information Security Program policies and guidance.

**Delivery:** Instructor-led

**Length:** 8 days

**Target Audience:** DoD military, civilians and contractor personnel with primary duty as a security specialist or manager within a DoD component Information Security Program. Also appropriate for part-time security specialists or managers, persons who require the course as part of their training in a DoD security career field, and federal employees with responsibilities related to information security.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Successful completion of the [Basic Information Security In-dependent Study \(IF001.18/IF001.08\)](#) and the [Marking Classified Information \(IF105.16/IF105.06\)](#) courses and exams.

**Course Requirements:** Students must earn 80% of total possible points in the course calculated from scores on practical exercises, quizzes and a final exam.

**Number of students per course:** 50

**Note:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System). The DSSA accepts requests to conduct this course off-site and will work with sponsoring activities to schedule course dates. If space is available, host organizations are asked to accept students from other locations. Joint sponsorship among activities in a common geographic area is encouraged. The host is responsible for funding all travel and per diem costs for two instructors and FedEx shipment of course materials.

#### Course Schedule:

Feb 18 - 26, 2009 Linthicum, MD  
Apr 28 - May 06, 2009 RAF Lakenheath, England  
Jun 02 - 10, 2009 Linthicum, MD  
Aug 04 - 12, 2009 Ft. Belvoir, VA  
Aug 18 - 26, 2009 Redstone Arsenal, AL

### Information Security Orientation (IF101.01)

### INFORMATION SECURITY

**Description:** Introduces personnel to the Department of Defense (DoD) Information Security Program. Students acquire the skills and knowledge necessary to successfully work with classified information at their components. This course covers the fundamentals of the Information Security Program and provides a basic working knowledge of how information is properly classified, marked, disseminated, transmitted, downgraded and declassified. The minimum requirements for safeguarding classified information against unauthorized disclosure, reporting security violations and suggestions for establishing activity security practices are also discussed. The intent of this course is to provide the basic knowledge required to work effectively within the DoD Information Security Program.

**Delivery:** Instructor-led

**Length:** 2 days

**Target Audience:** Military, civilian and contractor personnel who require an overview of the DoD information Security Program. This includes administrative and technical personnel, security personnel with little or no experience with information security, and others designated as part-time security managers or unit security coordinators. Ideally, students should work with classified information and have various responsibilities for everyday protection of classified information.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Full-time attendance and participation in all sessions.

**Number of students per course:** Varies

**Notes:** The DSSA accepts requests to conduct this course off-site and will work with sponsoring activities to schedule course dates. If space is available, host organizations are asked to accept students from other locations. Joint sponsorship among activities in a common geographic area is encouraged. The host is responsible for funding all travel and per diem costs for two instructors and FedEx shipment of course materials.

#### Course Schedule:

Jan 27 - 28, 2009 Ft. Bliss, TX  
Mar 25 - 26, 2009 Ft. Bliss, TX  
Jun 10 - 11, 2009 Redstone Arsenal, AL  
Jul 07 - 08, 2009 Ft. Belvoir, VA  
Jul 29 - 30, 2009 Ft. Bliss, TX

### International Programs Security Requirement Course (IPSRC) (FT108.01)

### FACILITATED PROGRAMS

**Description:** Covers the principles and procedures that facilitate international technology transfer, export controls, and foreign disclosure. Specific lessons discuss the acquisition process for international program security, controlled unclassified and foreign government information, the National Disclosure Policy (NDP) and the International Traffic in Arms Regulations (ITAR). The export approval and license process is covered along with the role of the Defense Security Service (DSS). Other topics include the transfer of classified information, visits and assignments of foreign nationals, Multinational Industrial Security Working Group (MISWG) documents, the Committee on Foreign Investment in the United States (CFIUS) and Foreign Ownership, Control or Influence (FOCI).

**Delivery:** Instructor-led

**Length:** 3 days

**Target Audience:** U.S. Government employees (civilian and military) and defense industry personnel. In all cases, students must be U.S. citizens and programmed for or assigned to positions with responsibility for an international program.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Full-time attendance and participation in all sessions.

**Notes:** This course is a product of the Office of the Secretary of Defense (Policy). ### Introduction to Personnel Security Management Course (PS113.16)

### PERSONNEL SECURITY

**Description:** Introduces the management practices and procedures required to administer the Department of Defense (DoD) Personnel Security Program (PSP) at the military base / installation level. The course provides an overview of the elements of the PSP to include: designation of sensitive duties; investigative and adjudicative practices; security officer responsibilities under the PSP: one-time access requirements; special security program requirements; and Due Process procedures.

**Delivery:** Web-Based Training

**Length:** 5 hours

**Target Audience:** DoD civilian, military and contractor personnel who support the DoD Personnel Security Program. Non-DoD personnel with similar responsibilities are encouraged to register since elements and concepts contained in the course apply to other federal personnel security programs. This course is specifically designed to address the needs of those individuals requiring an overview of the PSP who are not directly responsible for managing the program.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on the final examination (PS113.06) in order to print a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Internet Explorer 5.5 or above with JAVA and JavaScript enabled.

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (PS113.06) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

### NISPOM Chapter 8 Implementation (IS302.01)

### INDUSTRIAL SECURITY

**Description:** Teaches the basics of security for Local Area Networks (LANs) and practices implementation of the security requirements described in Chapter 8 of the National Industrial Security Program Operating Manual (NISPOM). This hands on course explains the fundamentals of computer and network security as they relate to 1) stand-alone computers, 2) computers interconnected in a peer-to-peer network, and 3) computers interconnected in a more complex client server network. Students configure computers for security, build a LAN in class and use various software attack tools to probe LAN vulnerabilities. Linux and MS Windows XP Professional operating systems are discussed.

**Delivery:** Instructor-led

**Length:** 3 days

**Target Audience:** Information System Security Managers (ISSMs), DSS IS Reps, DSS ISSPs, Facility Security Officers (FSOs) and other security personnel of contractor facilities cleared under the NISP whose responsibilities include managing the security of computer systems and networks.

**Clearance Requirements:** None

**Prerequisites:** Successful completion of the [NISPOM Chapter 8 Requirements for Industry course and exam \(IS201.16/IS201.06\)](#) or the instructor-led course (IS201.01).

**Course Requirements:** Full-time attendance and participation in all sessions.

**Number of students per course:** 20

**Notes:** This is the follow-on, instructor-led course to the NISPOM Chapter 8 Requirements for the Industry (IS201.06) course. This course can be applied to the CPE credit requirement for CISSP annual recertification.

#### Course Schedule:

### NISPOM Chapter 8 Requirements for Industry - Introduction (IS201.16)

### INDUSTRIAL SECURITY

**Description:** Launches the course Introduction which contains helpful information such as a course overview, target audience, navigation instructions, directions for locating resources, and guidance for obtaining feedback on knowledge assessments. This Introduction and Modules 1-6 of the course must be completed before registering for the final examination. It is possible to register more than once for the Introduction or any Module as refresher training once initially completed. The course in its entirety introduces the security requirements for safeguarding classified information being processed and stored in information systems at cleared contractor facilities through an in-depth review of Chapter 8 of the National Industry Security Program Operating Manual (NISPOM) and is the pre-requisite for the NISPOM Chapter 8 Implementation (IS302.01) course.

**Delivery:** Web-Based Training

**Length:** 1/2 hour (Introduction), 10 hours (All Modules)

**Target Audience:** Information System Security Managers / Officers (ISSMs/ISSOs), and Facility Security Officers (FSOs) or individuals with overall security responsibilities within companies cleared under the National Industrial Security Program (NISP).

**Clearance Requirements:** None

**Prerequisites:** Successful completion of [Information System Security Basics \(IS004.08\)](#).

**Course Requirements:** Passing grade (75%) on exam at end of course to receive a certificate of successful completion.

**Number of students per course:** N/A

**System Requirements:** Internet Explorer 5.5 or above; Adobe Acrobat 5.0 or above; Flash Player 6.0 or above.

**Notes:** Every screen of this module must be reviewed before the module will close.

### Personally Identifiable Information (PII) (DS-IF101.06)

### FACILITATED PROGRAMS

**Description:** Describes what Personally Identifiable Information (PII) is and why it is important to protect PII. This training reviews a Department of Defense (DoD) organization's responsibilities for safeguarding PII and explains individual responsibilities for PII recognition and protection. Major legal, Federal, and DoD requirements for protecting PII are presented to include the Privacy Act of 1974, E-Government Act of 2002, and the Federal Information Security Management Act, or FISMA. Federal guidance from the Office of Management and Budget, or OMB, publications is discussed. This training includes the DoD Privacy Program and reviews PII protection measures mandated by recent Office of the Secretary of Defense memoranda. Significant requirements are reviewed for handling PII and reporting any theft, loss, or compromised of this information. This training is required for DoD civilians and DoD contractors who work for DSS and have accounts on DSS networks.

**Delivery:** Web-Based Training

**Length:** 45 minutes

**Target Audience:** DoD civilians, military members, and contractors using DoD information and information systems.

### Personnel Security Management Course (PS103.16)

### PERSONNEL SECURITY

**Description:** Addresses the management practices and procedures required to administer the Department of Defense (DoD) Personnel Security Program (PSP) at the military base / installation level. The course describes the personnel security process including the types of personnel security investigations (PSI) and the position sensitivity or duties justifying each type of investigation. It identifies the agency authorized to conduct DoD background investigations and outlines the administrative procedures for preparing and submitting electronic requests for investigation. Procedures for proper handling and control of PSI and other relevant PSP information are covered. The adjudicative guidelines used for evaluating PSP information; granting interim and final clearance eligibility; temporarily suspending access; and denying or revoking clearance eligibility are explored. Operation of the continuous evaluation program is explained.

**Delivery:** Web-Based Training

**Length:** 7 hours

**Target Audience:** DoD civilian, military and contractor personnel who perform, administer, or manage all or part of the DoD PSP. Non-DoD personnel with similar responsibilities are encouraged to register since elements and concepts contained in the course apply to other federal personnel security programs.

**Clearance Requirements:** None

### SAP Orientation (SA101.01)

### SPECIAL ACCESS PROGRAMS

**Description:** Introduces students to Department of Defense (DoD) Special Access Programs (SAPs). The course describes the SAP environment and discusses the interaction among the executive, legislative, and judicial branches of government in establishing SAP policy. The roles and responsibilities of oversight and support offices and agencies, and mandatory SAP requirements are reviewed. Lessons address security enhancements, annual reviews, inspections and audits.

**Delivery:** Instructor-led

**Length:** 3 and 1/2 days

**Target Audience:** Newly assigned SAP security professionals and SAP non-security professionals.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Successful completion of the [Basic Information Security Independent Study \(IF001.18/IF001.08\)](#), [Marking Classified Information \(IF105.16/IF105.06\)](#) and [Introduction to Personnel Security Management \(PS113.16/PS113.06\)](#) courses and exams.

**Course Requirements:** Full-time attendance at all sessions and participation in practical exercises.

**Number of students per course:** 75

**Note:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System).

#### Course Schedule:

Feb 03 - 06, 2009 Linthicum, MD  
Feb 10 - 13, 2009 Chantilly, VA  
Mar 03 - 06, 2009 San Diego, CA  
Mar 31 - Apr 03, 2009 Chantilly, VA  
Apr 14 - 17, 2009 St. Louis, MO  
May 05 - 08, 2009 Hanscom AFB, MA  
May 19 - 22, 2009 Chantilly, VA  
Jun 02 - 05, 2009 Hill AFB, UT  
Jun 15 - 19, 2009 Anaheim, CA  
Aug 11 - 14, 2009 Linthicum, MD  
Sep 15 - 18, 2009 Linthicum, MD

### SAP Overview (SA100.01)

### SPECIAL ACCESS PROGRAMS

**Description:** Provides on-site training for organizations working in support of Department of Defense Special Access Programs (SAPs). This overview describes the SAP environment and discusses the interaction among the executive, legislative, and judicial branches of government in establishing SAP policy. The roles and responsibilities of oversight and support offices and agencies, and mandatory SAP requirements are reviewed. Security enhancements such as special terminology, personnel security investigative or adjudicative requirements, specialized non-disclosure agreements, carve-outs, billet systems and other options are defined in accordance with Revision 1 to the Overprint to the National Industrial Security Operating Manual Supplement 1.

**Delivery:** Instructor-led

**Length:** 4 hours

**Target Audience:** Government and industry personnel assigned (or about to be assigned) to an approved SAP - by invitation only. Attendees are selected by the sponsoring organization.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** None

**Course Requirements:** Full-time attendance

**Number of students per course:** Determined by the host facility

**Notes:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System). On-site facility must provide a classroom with computer generated projection capability.

### Security Awareness for Educators (SAFE) (GS103.01)

### GENERAL SECURITY

**Description:** Addresses how to create an effective security awareness and education program and identifies solutions for overcoming the various challenges surrounding this responsibility. The course covers how security professionals can create a program with a limited budget, gain management support, motivate coworkers, promote themselves, and prepare and conduct effective security awareness presentations. The course is a mixture of presentations and practical exercises during which attendees work in small groups tackling presented challenges and sharing solutions.

**Delivery:** Instructor-led

**Length:** 3 days

**Target Audience:** All Federal civilian, contractor and military personnel who implement their organization's security awareness and education program.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Full-time attendance and participation in all sessions.

**Number of students per course:** 50

#### Course Schedule:

Mar 10 - 12, 2009 Linthicum, MD

### Security Compliance Inspection Seminar (SA210.01)

### SPECIAL ACCESS PROGRAMS

**Description:** Provides students with policy and direction to ensure all inspections are standardized, equitable, and consistent across all inspection agencies. The course reinforces policies and procedures established for the inspection of a SAP and its related functional areas as directed by the SAP Central Office (SAPCO) to validate compliance with government requirements. Students will develop the concept of inspection by observing and interacting, rather than solely relying on the inspection checklist.

**Delivery:** Instructor-led

**Length:** 2 days

**Target Audience:** Program Security Officers (PSOs), New and Experienced Inspection Team Members. Nomination and selection of attendees will be done through procedures established by the Service SAP Central Offices.

**Clearance Requirements:** Secret - See Notes

**Prerequisites:** Successful completion of the [SAP Orientation \(SA101.01\)](#).

**Course Requirements:** Full-time attendance at all sessions and participation in practical exercises.

**Number of students per course:** 28

**Notes:** Student access information must be documented in JCAVS (Joint Clearance Access Verification System).

### Transmission and Transportation for Industry (IS107.16)

### INDUSTRIAL SECURITY

**Description:** Examines the requirements and methods for transmitting or transporting classified information and other classified material in accordance with National Industrial Security (NISIP) requirements. Lessons explain policy, documentation, preparation, dissemination requirements for specific types of information, and authorized transmission and transportation methods.

**Delivery:** Web-Based Training

**Length:** 2 hours

**Target Audience:** Facility Security Officers, DSS Industrial Security Representatives, and other contractor personnel who prepare classified information and materials for transmission and transportation.

**Clearance Requirements:** None

**Prerequisites:** None

**Course Requirements:** Passing grade (75%) on exam (IS107.06) in order to print a certificate of successful completion.

**System Requirements:** Internet Explorer 5.5 or above with JAVA and JavaScript enabled.

**Notes:** THIS DOES NOT CONTAIN THE FINAL EXAM. The final exam (IS107.06) is launched through a separate registration. Students must register for and pass the exam in order to receive credit for the course.

**Course Schedule:**

This course is available year-round on DSSA ENROL.
